

A PROPHETIC WORD FOR 2008

OPENING MESSAGE

**Visions of a huge ship in a calm sea
and a buoy in the middle of the ocean
with a bell on it.**

You know I was just even reflecting on what God has said for this year and I remember the word for this year was not a word that will end at the close of 2007 because the three waves of evangelistic fervor would go beyond even 2007 because each wave would last seven months, so three waves will go twenty one months and we know it will not be accomplish just in 2007.

And I was asking God and I was praying and God show me a vessel. I looked at it and it was a huge ship, it was a ship that was brightly lit, beautiful ship and the ship was cruising along, on a sea that was calm, that was seem to be much rejoicing on board the ship, I could see just in the picture people, people partying and people just enjoying themselves and everything and as the ship began to sail it passed a buoy. I was wondering what this about the ship passing a buoy. This buoy was right in the middle of the ocean and I said God I don't understand it, what is a buoy doing right in the middle of the ocean? And it was buoy that had a bell on it and as I looked at it I saw the base of it actually there were two words, on the right hand side was the word **2007** on the left hand side was the word **2008** and as this vessel sailed passed the buoy it began to cause some waves and the bell began to ring but the people on board were not even paying attention because they were caught up with just rejoicing, partying, there was so much music, the lights were all on and as this vessel passed that bell that was now being tossed, turned and there was ringing but yet the sound was not heard and as this vessel passed and I could see this and it was in the mind I could see this a clear line, like right here, and just like 2007 and 2008 and the vessel was just passing right between. There was a moment where the vessel was right and the bell was in the centre, the buoy was in the centre of it.

And as it began to pass as it pass this, all of sudden something happen, I heard an explosion it was something that was very loud something I couldn't see the flames or anything and it was an explosion and all of a sudden I could see something in the spirit. This vessel was a huge vessel it had twin propellers and that explosion was like a sound of something breaking and I saw all of a sudden one of the propeller broke and sank into the deep waters but the vessel continue moving and there was another explosion and that single screw that was propelling along also broke and yet the vessel continue to move and I was watching the scene as it continue to move as it went.

It started to slow down but the people on board was totally like not even paying attention and the sound of the party was going on and than I saw this third explosion. I didn't say I heard, I saw this third explosions and this third explosions were like something exploding deep within from the vessel and I could see just like all of sudden some parts of the vessel, **flames came** and this was something that really shook the whole vessel and it was the first time people began to realize, they did not heard the sound of the bell, they did not hear the sound of the first cracking sound as one propeller gave way nor the second but this time this was not only a sound but

flames and the whole vessel began to shudder but the vessel continue to move and I could see people getting anxious, people getting concern.

Some people all of sudden stopped the partying and I could see people running below decks and I was wondering why peoples were running below decks if the vessel is going to sink, people will be onboard decks and this vessel all of sudden lost momentum and began to slow down. Smoke was pouring out and all of sudden I saw people, people were coming out from below decks but they were coming and carrying a lot of things and I saw very clearly a woman and this woman was lugging all sorts of packages around her and she was holding on these packages and she was trying to climb over the rail and all of sudden she tripped and fell over into the waves. There was no big strong waves **but what she was carrying, pulled her down** and she just sank.

And I saw another man dragging, it was like dragging ham sacks and he was also trying to climb over the rails and some people were telling him to "Let Go of all these things" but he held on and as he cross the rail and went into the water. **What he was holding pull him under.**

I was looking at the scene and I couldn't understand but I saw a small group of people that were there, right at the front of the vessel and these people were praying and these people were crying out to God. I could hear the cries that was even coming above the sound of people panicking now and as this cry began to go out I saw like a bluish light began to reach out to heaven and as this begins to happen, I saw another vessel coming towards it, a very peculiar vessel it was more like a barge and on the side of it was 4 Letters **S.S.S.S.** four S's there, as I began to see this vessel began to come alongside the bigger vessel but the people were panicking and do all sorts of things and were not paying attentions and all of sudden there were something supernatural gather those people who were praying and they were set on this vessel and this vessel began to move away.

People all of sudden **realized that there was a alternative** I saw people jumping into the water and people panicking but none of them could reached that barge, that was slowly moving away, many drowned.

I was looking and I was expecting any minute to see this big vessel sink but it did not sink, it just stayed there and it didn't go any further it just stayed there. I couldn't understand, for weeks after that I have been asking God. God, what is all these about, my mind could perhaps try and interpret, in the natural and tried to understand but I knew, God was showing something that would apply not to myself only but for the year 2008 and I felt God told me something that, the year **2008 will be a year of contradictions.** Is like two different things that are going to happen.

The first word I saw as I prayed and I was trying to get understanding **was the word Reversals** meant something, that is going to get reversed.

Three (3) explosions, **the third involved fire** not the first, not the second but the first and the second slowed down the vessel and I believe this year, God is going to allow certain things to happen, yes, certain things will begin to slow down perhaps even some of the things we have trusted and **it will not be going be just one event to slow it down** but perhaps, the great comfort is, finally that the **vessel did not sink, it was still there,** but **many people sank instead** and I was looking at the scene and ask God, "Is there no hope?"

The four (4) Ss Soul, Saving, Serving, Spirit

And God reminded me of that barge that I saw. I said God “what is it about” “4” s, all of sudden the Lord put these in my heart.

The 4 S’s stood for four things:

Soul, Saving, Serving, Spirit.

Soul, Saving, Serving, Spirit.

I was trying to understand and I say, God I still do not understand.

I understand what I believe, what God is saying, there is going to be certain reversals. The economy may not be rosy as some of us may think, we may still be caught in a foray that we cannot understand the warning signs. The bell that was there ringing away.

The thing’s that is going to cause it to slow down, we still get so caught up. And the worrying thing is that when these reversals come, many people with the wrong priorities will be looking how to salvage what they have, and instead of turning to God they will be turning to try to salvage.

And instead of finding relief, those very things that they are focused on will drag them down, those things that they have trusted on and God put this word in my heart, **Priorities.**

We need to get our focus right. Yes, there is going to be some shaking this year, now we got to get our priorities right. Where are your eyes going to be? Are your eyes going to be on the natural, focused upon trying to retrieved or would you set your priorities right and remember that he is the same God yesterday, today and forever. A same God that so cared, that he gave his only son and God that wants to extend the great and head hand of Grace and Mercy but the God was waiting. And as I was looking at these, God says, this year will be a year of hope, for those with the right priorities

Breakthrough and Fulfillment of unanswered prayers

Some of you have already heard me I have already shared this, that 2008 will be a Year of Breakthroughs. It is going to be a year of breakthroughs, not only a year of breakthroughs God says but it is going to be a year of fulfillment of answered prayers. If some of you have been praying and been praying and praying and your prayers seems to have been falling on deaf ears. Take hope!

Because, God is saying it is not that he did not hear you. It is not that he did not want to grant your prayers. God says that there is a season and there is a time and God is seeing and looking for some things. And when you can get this right with God, this year fulfillment of unanswered prayers! I want to shout that again, **Breakthroughs and fulfillment of unanswered prayers.**

And as I sought the lord for these, the Lord says that he has not completed what he have started to do this year. Take heart!

If you thought you have missed the Seven Fold Restorations and if you thought you have missed so many things. God says, the **reversals are for those who have not turned back to God.** There is still hope today!

I saw a few words a few **“R’s”** that came from these.

I saw clearly the word **Restoration** !

I saw clearly the word **Reconciliation** !

I saw clearly the word and that God is also going to bring **Retribution** !

And as I look at these, I saw even in this year, God is going to bring tremendous transfers to those who are ready. But the conditions, I heard God said very clearly, the conditions and all of sudden, as I was seeking the Lord. I saw the valley. I saw the Valley as perhaps prophet Ezekiel saw it, dry bones!

I saw, among the dry bones, that was stones. I couldn't understand this and all of sudden this word began to shout within my spirit. No more dry bones, no more stumbling stones. I want to hear this word again. No more dry bones! No more stumbling stones! And I was looking at these I said God but How? How? Remember what Ezekiel did?

He called the spirit, from the four winds, the North, the South, the East and the West, four (4) winds. Who brought the four winds? The spirit of God, and as I was trying to understand this and God said, that there is, four winds.

Four winds, that, God is, going to bring even right now. Four winds that is, going to bring a hunger. Four winds that is, going to bring a thirst. Four winds that is, going to bring hatred. Four winds that is, going to bring repentance. I said God, I don't understand.

And God said for **those who began to seek me, my spirit is going, to bring such a dimension of a hunger and a thirst upon them.** Without this, hunger and thirst and is not by your might and not by your strength and not by your own effort but as you would turn to God, he is going to bring this hunger.

And this hunger is not just a hunger for the blessings but a hunger, for God righteousness, a hunger for the love of God, a hunger even for God's plans, God's purposes. A hunger for what God has and wants to do. A hunger for all that is of God and not just a hunger, a thirst, a thirst even for righteousness. Do you know that we can hunger and we can go a long time without food! I know it, I fasted forty days and forty nights and it is possible for man to go without food for forty days and nights but you can't go very long without water, unless you have a supernatural anointing from God. They said that without water you can last maybe three (3) days, after which it is going to drive you crazy.

And it says not only hunger but thirst and I began to ask God, I said God than what is this hatred? Hatred, what it is going to do with hunger and thirst. And God says, with this hunger and this thirst, will come, a hatred for Sins. Let me repeat this, God says he is going to bring a hatred for Sins.

You see, one of the biggest problem that God put in my heart is, we have not learn to hate Sins enough and we allowed Sins to be in our midst. We compromise and do a lot of things but God says that there is going to be hatred for Sins because if you don't hate Sins you can't love him.

If you understand the word Sins, Sins means anything that will separate you from God. It is not talking about doing wrong things. It is talking about hating the very thing that would separate you from God. And God say, my love wants to bring you into be separated for me but Sins want to separate you from me.

And God have been pouring out his Love but his Love has not been able to impact anything because we have not come to hate Sins enough. And the Holy Spirit is going to come in such a dimension if you were allowed him. That it is going to put this hatred within you, that you going to despise Sins altogether, that there will be no place in Sins, in your life.

That there is only way the Love of God can begin to pour into your life.

And Sins comes in so many ways. Sometimes, you may say but I don't commit adultery. You may say I don't go and hurt, stabbed or murdered anybody. But Sins is anything that separates you from God. **It can be anger. It can be unforgiveness. It can even be a critical spirit. It can also be wrong priorities. You see, too often today we seek God for his blessings but we have failed to seek God for who he is.** I said than what is the last of the, Four winds?

God says, Repentance. Repentance! That we need to be repent from Sins. But I said, God when I accepted you, I repent from Sins didn't I? God say, No, I am not talking about your feeling sorry. Many feel sorry because we are caught in situations; many feel sorry because we feel we missed the blessings of God. Many feel sorry because we feel that we are in the wrong places, wrong time, but God says, I am not talking about that. I am talking about repentance will go deep. Deep! And the Holy Spirit will be going to bring it. And the repentance is going be the precursors that something that is going to come.

That repentance is going, to bring first the fire of the Holy Spirit and the fire of, the Holy Spirit is going, to burn out every chaffs and dross in your life. It is going, to burn out everything that wants to separate you from the love of God. It is going to be such purifying. There is going to be no compromise. I said, "God, can it be?". He says, yes, because without that purification you will continue to allow Sins in your life. You will compromise, you will settle for second best. The hunger and the thirst cannot come and Sins would cloud your eyes that you cannot see and it would pluck your ears, that, you cannot hear.

And God say that is a reason right now, that purification. I said, God how? I said, do I need to go on my knees and repent and repent and repent? God says, yes. I said, I don't understand. First, tell them, **the time of my love, of my longsuffering patience, of the Grace that I have given, of the Mercy that I have extended.** The time of judgment is near. God's hand of judgment is coming. And if you are wise of the signs of times you realize that we are in that season right now.

And I am reminded the word of **1 Peter 4 verse 17**, that remind us, that **Judgment must begin at the house of the God.**

If God does not judge his own, he cannot judge the world. Judgment must begin at the house of God. And the word of God, remind us that, if we would but judge ourselves than we will not be judged. You see, God is not taking away your choice. It is still going to be your choice where you need to make a decision. Are you going to judge the things in your life that needs to be judged! Are you going to take the word of God and applied the word of God in your Life. And God show me and God "How" and all of sudden, I am reminded of Neman.

Neman was asked by Elijah to go and dip himself seven (7) times in the river, Jordan. Not once, not twice, not three, not four but seven (7) times.

And Neman nearly missed the blessings because he had his eyes on wrong priorities. He had high regard for himself and he said "What", who is this man that who don't even come out to see me. Me, I am a man of position. So what if I am a leper? I am still a man of position. He just sent a servant to come and ask me to go and dip himself seven (7) times in the river, Jordan. He was angry and he didn't want to do it but he was reminded by the servant and said, if he had ask you to do something else would you not done it? The word of God shown me, repentance is not just coming with here.

I said why seven (7) times? God say I am going to bring you to repentance. You going be like this, you going to jump right in! First cleansing, you are going to jump in even deeper and you are going to cleansed a little bit more. It is going to be another cleansing but the hearts need to be ripped apart, another, another seven (7) times. Some may need more than seven (7) times I don't know but he said because what I have for you is so precious, I cannot allow any sins left in your life. I say, God is that possible? I am still in the flesh and that's why God start to made me look at this word "Born Again". I began to realized that we can be saved, how many know that I thought being, "Born Again" is getting saved. God have shown me otherwise. Some circles will tell you, "Born Again" means you get the baptism of the Holy Spirits and you speak in tongues but I began to realize the five signs (5) God shown me in the bible, about those who are born of God.

One of the first thing, he says there was, those that were born of God will practice righteousness. Those that born of God will not sinned. Those born of God will not sin because the love of God will be in him and it will constrain him. It will be a new birth whereby you will no longer, born of the corruptible seed. We are still in the flesh and I am still in the flesh. But there will be incorruptible seed, that were be born of and there is going, to be a supernatural dimension where you yourself were not able to do it but by the power of the spirit of God, all things are possible. To them who have made the decisions and said yes God, today I want to! The season is now!

This year, God is, rising up Kings, God is rising up breakthroughs. God is going, to fulfilled unanswered prayers. Set your priorities, we need to get our eyes straight.

Too many are seeking God because of how God can bless us but God wants you to draw into a time of deep intimacy. A time where you will, be in that his secret place all the time.

A time where Sins have, no more place in your life. No more compromise! And I believe this right now this is a season.

This year is going to be a very typical year to what God is going to do. The revival will come. **It will not tarry but God showed me the cry of this revival will be people who are so sanctify by God that the cry will be "God sent the Revival, Let it begin with me"!** The cry will be "God sent the Revival and let it begin with me". The cry will be "God sent the Revival and let it begin with me". I shared what God have put my heart to share if you seek him he will tell you more.

But God have shown me this, he said to me, this year I am going to use you in the direction that you may not even want. I am going to use you to reveal Sins. I am going to use you where all of sudden you going to have the word of knowledge and you are going to say to people; you need to repent of hidden Sins, you need to repent of hidden Sins.

I said, God, I don't want that role. God says, then you tell them, if they would repent than you don't have to tell them to repent of the hidden Sins. Amen!

I am not praying for the anointing for that word of knowledge, I am praying that the spirit of God will move in your heart.

And tonight I believe is the first. If you have heard this and your heart have been open, I believe God would be speaking to you. If any of you said that you have no Sins, than I am telling you something, tonight you are going to make God a liar. Let me repeat that again, if tonight you can sit here and said that you have no Sins, I heard the spirit of God says, you are calling me a liar. But some of you may say I only got a little small Sin, a little white lie. I want to tell you this, to God a lie is a lie. A sin is, a sin there is no big Sins, there is, no small Sins, there is no grey Sins there is, no black Sins. There is no white lie, grey lie or black lie.

And today, God is not here to punish you. God is calling you into a deep repentance. Would you be like Neman, change of heart?

Would you be like Neman, tonight before we even end 2007 and cross into the portals of 2008. **Would you, make your decision and not just once but as many times as you need to go under the water until you can face God.** And I want to tell you that it is just not repentance, God show me.

Some of you may be so touched by the spirit of God that you will want to make restitutions, you may even want to call people up and set things right. If God put that in your heart, God will give you strength, God will give you grace.

Don't miss it as we end 2007, God has so much for you in 2008, Breakthroughs, fulfillments of unanswered prayers, provisions, providences, restorations, reconciliations, healing not only in the physicals, healing in emotional, healing in relationship. Amen!

If God is speaking to you, you may come forward and kneel or kneel where you are. Nobody is judging you but if you are judging yourself you are going to be blessed!
