## He Heals!

## THE COVENANT VISION TESTIMONY NEWSLETTER

A FAMILY RECONCILED! // NOSE CANCER MELTED AWAY  
BABY HEALED OF CHRONIC CONSTIPATION *AND MORE*

# DO YOU HAVE A TESTIMONY?

If you have experienced a breakthrough or have seen God's hand move in your situation after attending one of our services, we would like to invite you to share your testimony with us. We believe that through sharing, you not only affirm what God has done, you continue to overcome the evil one by the word of your testimony (Revelations 12:11). To share your story, please contact us at [cwcentre@covenantvision.org](mailto:cwcentre@covenantvision.org) or give us a call at 6391 0027.

**WE WOULD LOVE TO HEAR FROM YOU!**

# TOUCH JESUS, HE HEALS!

## BIRTHED BY THE WORD

In December 1990, as Rev Francis was reading the Bible, the words of Acts 10:38 was quickened in him. He was then led to meditate on John 14:12 as well as to read the words of our Lord Jesus in Mark 16:15-20. In this a deep conviction was laid upon him that he was to “... *preach the gospel... lay hands on the sick and they shall recover.*” There was an assurance also that as he did that, the Lord would work with him “...*confirming the word with signs following.*”

So it all started in faith that he began to lay hands and to pray for the sick. Soon, there were testimonies of people getting healed, from simple headaches to migraine, diabetes, cancer, rheumatoid arthritis and many other forms of sickness and diseases. This then birthed out a hospital visitation ministry for Rev Francis as he started to receive requests to go and pray for the sick.

## CONCEIVED IN A VISION

During a **Prayer Powerhouse** Meeting on November 9, 1998, Rev Francis was shown an open vision. He saw a banner with the words “**Touch Jesus, He Heals!**” It was like watching a video and as the camera started to pull back, he saw what looked like a stadium with multitudes of people. In

that vision, he saw people in wheelchairs, on stretchers, with crutches... so many sick and needy people.

On 24 April 1999, the first **Touch Jesus, He Heals!** healing service was held in Wesley Methodist Church. Many responded and were touched, healed and restored. Many other **Touch Jesus, He Heals!** healing services, hosted by various churches, were to follow. Soon it also became a recurring monthly event in many churches. One of them was St Andrew's Cathedral, where monthly healing services started in September 1999 and continued till December 2005.

Since then hundreds of such services have been held with thousands receiving reconciliation, healing and restoration from God!

*Why Touch Jesus?* Because it is all about Jesus, “... the Word that was made flesh and dwell among us, (and we beheld his glory, the glory as of the only begotten of the Father,) full of grace and truth.”

**GLORY TO JESUS!**

# HEALED OF A BLOOD DISORDER

In February 2012, I went to see my GP for an ear infection and giddiness. The doctor did a blood count test on me and the report stated that my blood count was extremely low.

The normal red blood count reading for a female is between 12 to 16pt but mine was 5.7pt. The doctor insisted I go to the hospital for blood transfusion. As I was not convinced, I went to the polyclinic for another consultation and the doctor said the same thing. She told me that my heart was actually working very hard and any delay would cause me to either have a heart attack or a stroke.

Now I understood why prior to this consultation, I had experienced breathlessness. I found it difficult even to walk a short distance or just

to climb 2 flights of stairs. When I thought I could not make it, I would lay my hands on my heart and pray that God would sustain me and that I would be able to move on.

I was worried about the blood transfusion when I was in the hospital. Rev Francis prayed for me and he advised me to go ahead with the blood transfusion as it was a matter of life and death.

**THE DOCTOR WAS HAPPY WITH THE RESULT AND THERE WAS NO NEED TO DO A COLONOSCOPY TO SEARCH FOR GROWTHS.**

Thank God the transfusion went well and there were no side effects and infections.

I was allowed to be discharged from the hospital as my blood count increased to 8.3pt. Praise God!

However, I was still very worried about the suggested scan and colonoscopy I was to undergo to look for possible growths. I could not eat well and after a week of anxiety, I decided to go for the **Touch Jesus, He Heals!** healing service.

During that service, Rev Francis was preaching on the faith of the woman with an issue of blood for 12 years (Mark 5: 25-34). It really encouraged me. I went forward for prayer and during that time, Rev Francis asked me what I wanted Jesus to do for me. I said I wanted Jesus to remove from my body whatever that did not belong. After that day, I

could eat well again.

At the next **Touch Jesus, He Heals!** healing service, Rev Francis felt led and called out those with blood disorders for prayer. At that moment, I thought, "Wow, God knows, and I will be healed." I went out immediately for prayer to catch the anointing.

In May 2012, I took a second blood test during my

follow up check up. Thank God my blood count went up to 12.3pt. The doctor was happy with the result and there was no need to do a colonoscopy to search for growths.

In January 2013, I was scheduled for a scan as part of the follow up. Previously, they discovered a cyst at the lower left side of my womb. They wanted to check if the cyst had grown.

Rev Francis knew about it and called me on Sunday evening and prayed for me. He gave me a word that the cyst is gone. The next morning when I went for my scan, I felt very peaceful. They probed from my left side to the right side, and back to the left side but they could not find the cyst. They said the cyst had disappeared! I thank and praise God for that. All glory to Jesus.

# 12 YEARS OF HATRED TURNED INTO BLESSING

I grew up in a family with two parents but since young, I lived like I never had a father. He was a loner and a gambler. Not having been hugged even once by my father all my life, I had no idea what ‘father’s love’ was like. Instead, I could only recall myself using a chair to block my dad from hitting mum when I was 6. Basically, I never felt I had a father.

## TESTIMONY BY MICHELLE MAK

---

hang up but I knew I could not until I said I was sorry. So I forgave him and asked for his forgiveness. When I hung up, I wept and all the pain started surfacing.

However, God issued me the ultimate challenge. He told me I had to reconcile with my father. When I went back to Hong Kong in September 2013, it became a “mission trip” for me. A few days before I met him, I had a discussion with my mum, and invited her to say a prayer of forgiveness. She said she still couldn’t let go of what he had done but was willing to as long as God said so.

Days later I met my dad for lunch. I was prepared that it would not be easy. I brought him to my place, prayed and decided to do what I had to, telling him how we had suffered all these years and that I even wanted him to die, and be in hell for the rest of eternity. But I added that Jesus loves him so much and He wanted him to know that. I shared with him my whole encounter and how

I came to the decision to reconcile with him. I asked again for his forgiveness and gave him money, which was significant because it was an act of acknowledging him as my dad. He was shaking as I spoke and I knew it was the Holy Spirit.

**THE HOLY SPIRIT  
EMPOWERED ME TO  
FIGHT THE BATTLE  
ALREADY CLAIMED BY  
GOD WITH VICTORY.**

Eventually he took the money, felt happy and left. He did not apologise nor say thanks, but it did not matter. I did what God asked me to do and I left the rest to Him. Two days later he reconciled with mum too. My mum said that he had changed, and that she even ministered to my father! I felt fantastic because I knew the victory was claimed the moment I placed my trust and hope in God.

All this could only have happened because when I came to Singapore in 2008, I was brought to

Covenant Vision Christian Church and later decided to sign up for the School of Ministry. I am grateful that the messages shared in church and the course in Practical Christian Ministry taught me the power of the Word and God’s promises. I was convicted and became determined to put into practice what I learnt. The Holy Spirit empowered me to fight the battle already claimed by God with victory.

Finally I just want to give my heartfelt thanks to my DG leaders Annie and Wee Beng, as well as Rev Francis. They have walked with me personally for the past three years through my darkest hours, and they’ve always been there for me. Without them demonstrating the real definition of discipleship and acceptance, I would not have made it through and experience how much God loves me as a sinner. The next time I share my testimony, I believe it will be when my dad is saved. I am looking forward to seeing God’s mighty hand on my family.

## TESTIMONY BY TAY SHY CHING

drowsy and nauseous and Rev Francis came over to pray for me.

After that, the pain was still there and each night, when it was unbearable, I held my wife's hand and we prayed. One night, I had a dream and in the dream I heard a voice saying that I was healed. At that time, I wasn't sure if it was God or Satan.

Typically, when a person goes through chemotherapy, ulcers will only start to appear at the 4<sup>th</sup> week. But in my case, ulcers appeared at the 2<sup>nd</sup> week! My doctor said he had never seen a case like mine and he didn't believe me. So I went back to my ENT specialist and when they did a scope, it showed the presence of many ulcers in my mouth. I was very frustrated with God. I questioned Him and asked Him why He didn't protect me.

Then one friend came and prayed with me and said that this could have been God's way of telling me something. The normal

treatment was radiotherapy and chemotherapy together. But I struggled with the decision of whether to undergo chemotherapy because I didn't want to. In the end, however, I did start the chemotherapy because I was afraid something would happen if I didn't go through the full course of treatment.

**ONE NIGHT, I HAD  
A DREAM AND IN  
THE DREAM I HEARD  
A VOICE SAYING THAT  
I WAS HEALED.**

The doctor told me that the early appearance of the ulcers indicated that I had a very sensitive body and that perhaps the radiotherapy was enough for me. I went back to think about whether to give up chemotherapy.

During that time, I heard a voice telling me that all my cancer cells were melted away. Following that, I had a dream and in that dream I was sitting on the toilet bowl having a terrible bout of diarrhea. It was strange because people who go

through radiotherapy and chemotherapy typically have constipation. But the dream indicated the opposite.

I didn't want to tell my wife because I didn't want to give her false hope, as I had not gotten a confirmation from the Lord. The next day after my treatment, I went home and passed motion; but it was hard stools because I hadn't gone to the toilet for 5 days.

The following day, on the way to the hospital for treatment again, I decided to tell my wife about the word I received from the Lord, that my cancer cells have been melted away. My understanding was that the melting was indicative of a burning away by radiation, not chemotherapy, which was the use of a chemical solution used to kill the cancer cells.

That day, after my radiotherapy, my doctor examined me again and when he did the endoscopy, he told me that the tumour in my nose had disappeared. I saw that as a confirmation

of what God had told me. But the dream had not come to pass and I was looking for a confirmation of that as well.

That afternoon, I went to the toilet and I passed out half hard and half soft stools. But the day after, as I sat on the toilet again, I cried out to God and asked Him to confirm that I would not have to go through chemotherapy and only radiotherapy and that He would indeed heal me. And

in that instance as the tears flowed, I had diarrhea! Just like my dream!

When I was at the next **Touch Jesus, He Heals!** healing service, I asked Rev Francis to pray for me to recover my sense of taste. The doctors had told me that cancer patients usually take 2 – 6 months to recover their sense of taste. But I believed that God would restore my sense of taste in a short period of time. One day, I just decided to eat

a fishball (after just having liquids for months) and I realised I could taste the saltiness!

I thank God that throughout the treatment, He spoke to me personally and He led me to experience Him. Doctors have scheduled me for more tests but in faith I believe that I am completely healed!

*This testimony was recorded at our Touch Jesus, He Heals! healing service on 17 August 2013.*

# NO NEED FOR NECK SURGERY!

I live in Kuala Lumpur (KL) and six months ago, I came to Singapore because I suffered from numbness and pain in my right hand and leg to the extent I couldn't control my limbs nor drive very well. So I knew something was very wrong. I took medication and went for consultations with specialists in KL but they could not detect anything.

Finally I felt I had to come out to Singapore to seek medical advice at SGH. While I was here, two friends, James and Jackie, hosted me. I wasn't a Christian then. In fact, I totally resisted Christianity because I felt Christians were very pushy. In between hospital appointments, Jackie would talk to me and share the gospel with me and for the first time, I felt that Christianity wasn't pushy. But in my mind I hesitated because I knew my mum would be very upset if she knew I suddenly believed in Jesus Christ.

Jackie told me that there was the **Touch Jesus, He Heals!** healing service on the 3<sup>rd</sup> Saturday of the month. But I said I couldn't go because I had a business presentation that same Saturday and I definitely had to rush back to KL on the Friday.

The doctors suspected I had a brain tumour and wanted to arrange for an appointment with the neurologist but the only time they could set the appointment for the brain scan was on the Saturday of the healing service! So I had no choice but to stay in Singapore. Jackie said that Jesus wanted me to attend the healing service. I agreed and attended the service that night.

I listened to Rev Francis Khoo's sharing and when he told us to close our eyes, and asked who was ready to accept Jesus Christ as their Saviour and Lord, my hand automatically went up. It wasn't my intention when I

came for the service but God had another plan. A more wonderful plan for me.

When I went up for prayer, Rev Francis asked me what my condition was. I told him I was diagnosed as having neck compressions and a suspected brain tumour. I also said that as long as it was not a brain tumour, I was fine having a neck surgery. The risk of failure was only 20% so I was more willing to undergo it. But Rev Francis encouraged me and said I was God's child. We prayed that I would not need any surgery and that I would be completely healed. In my conscious mind, I was doubtful; but in my heart I decided to trust God. After all, I had nothing to lose.

**IN MY CONSCIOUS  
MIND, I WAS  
DOUBTFUL; BUT IN MY  
HEART I DECIDED TO  
TRUST GOD. AFTER  
ALL, I HAD NOTHING  
TO LOSE.**

Glory to God, results of the scan was that I didn't have a brain tumour. The doctors suggested I undergo certain treatment without surgery with a review 6 months later.

6 months have now passed and I can stand here and say that I am healed. 6 months ago, I couldn't really walk up the staircase and had to be supported despite using a walking stick; but today I could walk up really fast. 6 months ago, I couldn't follow during the worship because I couldn't stand for long. But today, I could sing and stand throughout the worship. In the past, I had a lot of fear and uncertainties in my heart. After I accepted Jesus Christ, I have peace and calm in my heart. My children too experience the same. I am really thankful for God's healing touch!

*This testimony was recorded at our Touch Jesus, He Heals! healing service on 20 July 2013.*

# GOD HEALED OUR BABY OF CHRONIC CONSTIPATION

I want to testify that God healed our baby daughter of very severe chronic constipation. I believe that this healing was given to her due to prayer! Every night, our family gathered for prayer and her brother Zach and sister Kera would pray the same prayer for her every night – asking God to heal her of constipation. I also believe that her healing was due to the prayers of the Saints of Covenant Vision Christian Church.

Kayla was moving her bowels fine until she started solids at about 6 months. She experienced very bad constipation after starting on simple solids and I remember one painful afternoon in the pediatrician's clinic where he inserted two suppositories into her (the first one didn't work!) and had to skip his lunch time to dig out the waste from her bottom amidst bleeding and lots of howling and screaming from the baby. I think she was only about 7 months then. It was very

traumatic and Daniel and I were close to tears.

The pediatrician then sent us home with no other solution than a bagful of suppositories. If Kayla failed to move her bowels for more than 2-3 days, we were to insert one or two suppositories into her.

## **BRO JACOB LAID HANDS OVER KAYLA AND PRAYED FOR HER HEALING. HE SHARED WITH US AFTER THE PRAYER THAT GOD GAVE HIM A VISION OF KAYLA'S INTESTINES MOVING INTO PLACE.**

I cried out to God that this could not be a long-term solution. I could not imagine how she was to even grow into a toddler, let alone an adult, if she couldn't even perform this basic body function.

God in His mercy led us to another pediatrician who had a better solution – she gave two types of medicine to Kayla – one for stimulating peristalsis and one for softening the stools. This was the beginning of light in our dark tunnel of hopelessness.

Kayla responded to the medication, which we gave every alternate day.

Still, I cried out to God for healing, as I could not imagine that she would be on medication to move her bowels for the rest of her life. Also, she was painfully thin and could

not really gain weight since we were afraid to give her much more than pumpkin, prunes and avocado. We could not give her the usual porridge with meat, fish and vegetables for fear of worse constipation. Apparently, rice and especially brown rice, can be constipating for babies.

Around January 2013, Sis Karen told me that she and Bro Jacob were prompted to pray for Kayla in their couple prayer time. Sometime after that in church, Bro Jacob laid hands

over Kayla and prayed for her healing. He shared with us after the prayer that God gave him a vision of Kayla's intestines moving into place.

Kayla's condition started getting better after that, and she required less and less medication to move her bowels. I believe God also worked through Sis Trisha, who passed us a type of drinking cup with a straw that Kayla loved to drink water from. Ever since we started her on the cup, she has been drinking more than twice the amount of water she normally does.

We watched in wonder and gratitude as her bowels just got better and better, changing from small hard pellets to softer lumps. And when we started giving her supposedly constipating brown rice porridge with meat and vegetables, her stools became even better! She is now passing motion a few times a day, with completely soft and normal stools!

Praise the Lord!
